PROFILE

I am a final year student majoring in information technology at the Del Institute of Technology. I am interested and passionate about software development and quality testing. I have experience in project work and am active in organizations. I am a creative thinker, meticulous, and like to analyze. I can solve problems effectively, efficiently and able to create or run test scenarios and test cases. In addition, I am familiar with various testing tools such as jUnit, Cucumber, Selenium, Katalon, and Robot Framework. Have good communication skills and can work individually and in groups.

EXPERIENCE

10/2021 – 12/2021

(Project) Toba Batak Customs Website

Front End

The Toba Batak customs website is a website that will display information related to the Toba Batak tribe.

- Customizing UI/UX design into HTML, CSS, and JavaScript code. This includes building page layouts, applying styles, and adding interactive animations.

03/2022 – 05/2022

(Project) Successful Rice Auction Website

UI Designer and Developer

The Successful Rice Auction website provides a medium for auctioning rice to farmers.

- Creating technical documents
- Creating UI design
- Create page functions

01/2022 – 06/2022

(Project) Lumban Dolok Village Information System

Project Manager and Developer

The Lumban Dolok Village Information System website serves to facilitate village officials in the process of delivering information in Lumban Dolok village.

- Responsible for all tasks that will be done in the project

01/2023 – 06/2023

(Project) Website Design of Sitorus Godang Elementary School (Silaen District)

Tester and Data Analyst

SD Sitorus Godang website is here to simplify all matters of school data management.

- Track and determine any malfunction on the system
- Record and analyze any bugs on system
- Analyze and filters customer feedback for validity and improvement
